

Gasket Program

General

Our commitment is to provide transportation industries with the best gasketing products, programs and services

Do You Have Questions Concerning Your Gasket Program?

For example: What should you do when...

- you want to give your supplier a car number and have him immediately send gaskets to wherever you determine for that car?
- you have a leak because incorrect torque was applied?
- you need an analysis performed to determine the cause of gasket failure?
- you have cars held up because you don't have the time and/or resources to manage your gasket inventory?
- you need to minimize the number of materials you currently use?

Answer to All: Call Salco

Salco has provided gasket/sealing products and services to customers for over 20 years. In our continuing effort to develop and deliver improved products and services, we have created a comprehensive gasket program to ensure the proper installation of all types of gaskets. With Salco, our support does not end with the placement of an order. Further, our specialists are always available to address any concerns or questions you may have. We are proud to offer a host of other gasketing services as well, including Custom Inventory Services, all of which are explained on our Gasketing Resource CD. Please contact your Salco Representative or call one of the numbers below for your copy.

SALCO's Gasketing Resource CD Contains:

- | | | |
