

Eliminate Odors, Acids, Chemicals, And NO_x Fumes With Waste Fume Vent Scrubbers From The Corrosives Specialists At Hazarsolve

Waste Fume Vent Scrubbers from Hazarsolve help prevent environmental releases, ensures regulatory compliance, and protects employee safety and health

Available in portable and stationary models

Waste fume scrubbers are suitable for chemical producers, metal finishing semi-conductor manufacturing, and other operations generating fumes and gases

APPLICATIONS

- Removal of acid fumes from various processes
- Removal of SO₂ / NO_x and solid particle matter from boiler flue gases
- Dust collection

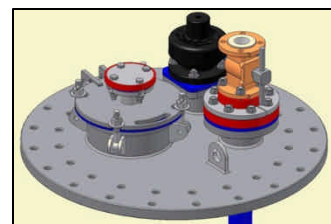

KEY FEATURES / BENEFITS

- Low maintenance; high efficiency
- Compact system design; proven performance
- Corrosion resistant
- Blower optional. Comes with or without
- Wide range of sizes and CFM ratings available in accordance with your needs

DEVELOPMENT AND ENGINEERING EXPERTISE

Coupled with Salco's freight-transportation and transloading industries expertise, Hazarsolve utilizes its extensive corrosives environment knowledge and experience to design, engineer and construct the best, most efficient waste fume scrubbers available.

Each Hazarsolve waste fume scrubber is individually designed and engineered to meet your requirements. Hazarsolve scrubbers are constructed to the highest quality standards and are built for maximum corrosion resistance under the most severe application conditions.
