

## Girard™ Pressure Relief Valve For Corrosive Applications

Relieve excess pressure, that would otherwise create a hazardous condition in a tank car, safely and reliably with the Girard™ patented 407 Series pressure relief valve

### Features and Benefits:

- Body constructed of investment-cast 316L stainless steel
- ALL surfaces are Teflon® spray coated and interior wetted parts are covered with a seamless Teflon® liner
- Flow Ratings:
  - 165psi valve = 11,114 SCFM
  - 75psi valve = 8,585.9 SCFM
- Quick disassembly feature designed for ease of maintenance
- Rugged, low profile design
- Comes in standard flange styles. Other flange options available upon request
- AAR approved

Item	Part	Name .....	Material
1	402019	Plug .....	Plastic
2	402003-TC	Rain Cover .....	Stainless Steel
3	402004-TC	Upper Housing .....	Stainless Steel
4	402005-TC	Spring .....	Stainless Steel
5	402006-TC	Poppet .....	Stainless Steel
6	402008-TC	Seat .....	Teflon®
7	GB25010-TC	Spring Retainer .....	Stainless Steel
8	402007	"O" Ring .....	Teflon® Encapsulated Silicone
9	402021-TC	Lower Housing .....	Stainless Steel
10	402021-TC	Lower Housing Line .....	Teflon®

\*-TC" designates Teflon spray-coated component.

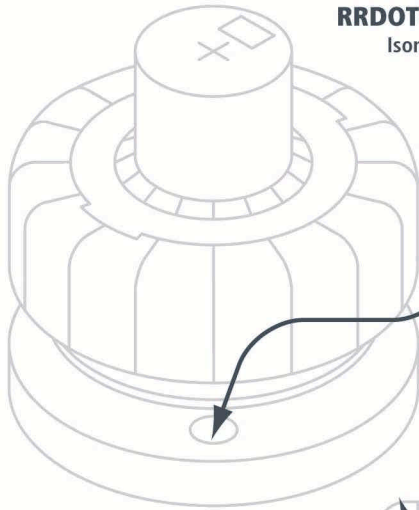

\*Teflon® is a registered trademark of the DuPont Company
